CORPORATE SUMMARY

BRIGHTSOL TECHNOLOGIES is an established, trusted name in Information and communication technology. We provide industry leading results to our clients. Founded in 2016, we have experienced professionals in the industry, who lead the way in successful business and technology transformations. We are a dynamic company with a vision to provide excellent service and bring new global solution at your disposal.

BRIGHTSOL TECHNOLOGIES ultimate goal is to help you maximize the value of your technology investment. We do so through our commitment to quality, value, and customer satisfaction. BRIGHTSOL TECHNOLOGIES is able to develop, manage, and maintain the systems your business needs to thrive and scale in today's competitive marketplace.

Our ultimate goal
is to help you
maximize the
value of your
technology
investment

OUR MISSION

To Provide the suite of services and products that enable clients to strengthen internal control, improve project governance and be more successful and profitable.

To hire, empower, and retain the most talented employees committed to serving our clients by steering the employees into a common goal and ensuring that they build Brightsol technologies as a strong and respected brand.

To become known as the best enabler for operational efficiency improvement, to our clients' businesses through excellent customer service and collaboration.

To build a strong and respected brand associated with being a trusted corporate strategy advisory that will be synonymous with improving and solving the clients' business challenges through technology change and innovation.

To be the preferred strategic partner with our clients, by delivering innovative solutions that will make our clients' business more profitable, and competitive.

Support economic development, entrepreneurship and the country's transformation agenda, by empowering the youth through educational bursaries, experiential training and job creation.

OUR VISION

"To be a successful global information technology company trusted by its customers for service excellence, caring for its employees and collaborating with our customers to deliver innovative and value driven ICT products and services."
